Snow White is the titular protagonist of Disney's first animated feature-length film, Snow White and the Seven Dwarfs. She is a young princess; the "Fairest of Them All", whose beauty is defined by her inherent kindness and purity. Shortly after finding love in a charming Prince, Snow White learns that her jealous stepmother, The Evil Queen, is determined to kill her. Snow White forcibly runs away from home to escape the queen's wrath, but finds shelter in the cottage of seven dwarfs. Now a refugee Snow White, imprisoned daughter of the late king, escapes just as the Magic Mirror declares her the source of the Evil Queen's immortality. The Queen sends her men, led by a local huntsman, to bring her back. But upon her capture, the huntsman finds he's being played and turns against the Queen's men, saving Snow White in the process. Meanwhile, Snow's childhood friend, William, learns that she is alive and sets off to save her. Written by G.C. Bendixen.

Historically in New York City, December has seen a very large range in snowfalls from one year to the next. December snow totals have ranged from only a trace of snow to nearly 30 inches (76 cm); however, the long-term average is closer to 5 inches (13 cm). The risk for snow during December increase throughout the month with the end of the month about 3x more likely to see snow than at the beginning of the month.
